# Living Memorial<sup>®</sup>

PROGRAM

*“I will smile when I think of a small sapling growing  
tall over the years to celebrate my husband’s life.”*

**The significance of a unique life is symbolized with the planting of a tree.**

The Living Memorial program is a unique and special way to honor the memory of a loved one. When you select a Batesville casket,\* we arrange for a tree seedling to be planted in a national forest or woodland as a living tribute and memorial to the deceased. Established in 1976, the Living Memorial program has helped to reforest thousands of acres of forests throughout the U.S., Canada, Australia and the United Kingdom.

More than just a majestic memorial, these trees shelter wildlife, reduce water and wind erosion and contribute to the purity of the air we breathe, helping to improve the environment for generations to come. The Living Memorial program is managed by Batesville in cooperation with the U.S. Forest Service, The Canadian Institute of Forestry and other international organizations. Tree species and planting locations are determined by these agencies, based on the greatest need in that region.
