tree planting.

GENERATIONS™

Sustainability by Batesville®

Honor a life, sustain the next.

3 new sustainable caskets

For those who have passed, the last statement of their footprint on earth lays a path to a better future.

By choosing a Generations™ casket, families honor loved ones by making a commitment to those who follow, sharing one last gift to the planet.

PROMISE™

- Wooden knots and natural characteristics*
- Meadowlark natural cotton interior
- Suitable for cremation or burial
- LifeView® panel

SINCERITY™

- Wooden knots and natural characteristics*
- Meadowlark natural cotton interior
- Suitable for cremation or burial
- LifeView® panel

HAVEN™

- Wooden knots and natural characteristics*
- Meadowlark natural cotton interior
- Suitable for cremation or burial
- LifeView® panel

Our premium Generations casket features a sleek domed top and intricate design details from end to end. The interior panel features a LifeView panel and accommodates one LifeSymbols® design or display medallion.

The Sincerity offers refined aesthetics with Batesville's trademark craftsmanship. It features elevated design details, including a curved plank top, more intricate edges, and the interior panel includes space for up to three photos.

Sustainability meets simplicity in our classic Haven model. The streamlined geometric design and flat top combine for a modest profile, while the interior panel includes space for up to three photos.
